**Building Name:** Elementary School  
**Building Number:** 10  
**Street:**  
**City:**  
**State:**  
**Zip:**

**Inspector Name:**  
**Signature Date:** mm/dd/yyyy  
**Average Cert Level:** 4  
**Average Cert Level Mitigation:** 5

Control shows the risk level of the ventilation being turned off when the public is present. If it is not running the control level is very low and the contagion risk is very high. Systems with the highest levels are fully automated with alarms. Systems with lowest levels can be turned off by anyone with access including the public.

Summary	Min	Max	Average
Final AUC	0	157	48
Cert Level	0	6	4
Final AUC Mitigation	2	257	76
Cert Level Mitigation	1	6	5
